SUMMARY

Results-driven Data Science graduate student with proven expertise converting complex data into business insights. Successfully implemented machine learning models with 92% accuracy and reduced error rates by 25% through meticulous data cleaning. Skilled in Python, Power BI, and SQL, with experience automating reporting processes and creating interactive dashboards. Combines technical precision with business-focused solutions to deliver actionable insights under tight deadlines.

EDUCATION

Master of Science in Data Science and Artificial Intelligence

2023 - 2025

Ramniranjan Jhunjhunwala College | CGPA: 8.18

Bachelor of Science in Information Technology

2020 - 2023

Vidyalankar School of Information Technology | CGPA: 8.87

WORK EXPERIENCE

DATA ANALYST INTERN | Meriskill

March 30 - April 30 2024

- Developed comprehensive Power BI dashboard for Sales Analysis, enabling accurate profit and sales predictions
- Conducted in-depth analysis of diabetic patients dataset, achieving 90% model accuracy
- Automated reporting systems reducing manual effort by 40%
- Generated actionable insights through statistical analysis and data visualization

DATA ANALYST INTERN | Cognifyz

Feb 29 - March 29 2024

- Analyzed 10,000+ restaurant data points and reviews during virtual internship
- Executed three-level analysis project with increasing complexity, delivering all nine subtasks successfully
- Implemented data cleaning procedures reducing error rates by 25%
- Created interactive dashboards for restaurant performance metrics

CERTIFICATIONS

Microsoft Data Analyst Associate(DA-100) by ICT Academy

ADDITIONAL INFORMATION

- Technical Skills:** Python (Pandas, NumPy, Scikit-learn), SQL, Power BI, MySQL, HTML, CSS, Jupyter Notebooks, Git, ETL Tools, Microsoft Excel, Word, PowerPoint, Data Preprocessing, Prompt Engineering
- Soft Skills:** Teamwork, Communication, Problem Solving, Time Management

PROJECTS

Exploratory Data Analysis (EDA) on Sales Data

- Cleaned and explored sales data to uncover key trends and patterns.
- Created visualizations to communicate insights for business decisions.

Customer Segmentation Using RFM Analysis

- Segmented customers based on Recency, Frequency, and Monetary value.
- Identified target groups to improve marketing strategies.

SQL-Based Business Insights Project

- Wrote SQL queries to extract and analyze business data.
- Generated reports and dashboards to support management decisions.

User Engagement & Retention Analysis

- Analyzed user behavior data to identify retention factors.
- Provided recommendations to enhance user engagement.
